

PARK HALL JUNIOR ACADEMY 2020.2021

Accessibility Plan and evidence of compliance with the Public Sector Equality Duty

The equality duty (Equality Act 2010) extends to all those with **protected characteristics**. This makes it unlawful for a school to discriminate against a pupil or prospective pupil by treating them less favourably because of their:

- sex
- race
- disability
- religion or belief
- sexual orientation
- gender reassignment
- pregnancy or maternity

General equality duty

The **Public Sector Equality Duty** (PSED) has three main elements. In carrying out their functions, public bodies must have due regard to the need to:

1. **Eliminate discrimination** and other conduct that is prohibited by the Act,
2. **Advance equality of opportunity** between people who share a **protected characteristic** and people who do not share it,
3. **Foster good relations** across all characteristics - between those who share a protected characteristic and those who do not.

The duty to have “due regard” to equality considerations means that whenever significant decisions are being made or policies developed, thought must be given to the equality implications. The guidance suggests that it is good practice for schools to keep a note of any **equality consideration**, and that publishing it will help to demonstrate that the due regard duty is being fulfilled.

Eliminating discrimination and other conduct that is prohibited by the Act

Evidence that the school is aware of the requirements of the Act and is complying with the duties includes;

- Copies of policies (for example, the behaviour policy, child protection policy, curriculum policy) where included information has been effective in increasing schools ability to eliminate discrimination, reduce bullying etc.
- Awareness raising sessions with Governors, staff and pupils and the impact of these – see Head teacher reports and Governors minutes.
- Information on the action the school has taken to reduce discrimination such as responding to feedback from parents and pupils - parent questionnaires regularly completed and collated.
- Impact of aspects included within the curriculum aimed at eliminating discrimination and samples of work produced e.g. photographs of displays.

Advancing equality of opportunity between people who share a protected characteristic and people who do not share it

Evidence of compliance with this aspect includes:

- Recording of feedback from pupils/parents on action taken to reduce gaps in attainment between diverse cohorts of pupils e.g. providing social skills support or a sanctuary for those with autistic spectrum disorders
- Evaluation of action taken by the school to remove/minimise disadvantages experienced by disabled pupils e.g. additional support evidenced through TAs timetables, increased use of IT to reduce reliance on reading text etc.
- Steps to meet the particular needs of those with a disability through reasonable adjustments evidenced through teachers planning – access visits and plans
- Accessibility plans aimed at increasing active participation.

Fostering good relations across all characteristics

- The evidence that school can provide to demonstrate this includes:
- Identifying and evaluating the impact of curriculum content that aims to promote tolerance and friendship and develop understanding of different disabilities.
- Recording of activities (school/class organisation for instance) that aims to reduce prejudice and increasing relationships between diverse pupil groups
- Impact of increased involvement with local communities/ partnerships with other schools that is aimed at increasing empathy between different groups of pupils

Specific duties

In addition to its inclusion within the PSED equality objectives, schools have a duty to make **reasonable adjustments** for pupils with a disability. The DfE non-statutory guidance states that this duty can be summarised as follows:

- Where something a disabled pupil is placed at a disadvantage compared to other pupils, then the school must take reasonable adjustments to try and reduce/remove the disadvantage.
- Schools will be expected to provide an auxiliary aid or service for a disabled pupil when it would be reasonable to do so and if such an aid would alleviate any substantial disadvantage that the pupil faces in comparison to non-disabled pupils.
- Schools are not subject to the other reasonable adjustment duty to make alterations to physical features because this is already considered as part of their planning duties.

Reasonable adjustments

Factors a school may consider when assessing the reasonableness of an adjustment, may include the financial or other resources required for the adjustment, its effectiveness, its effect on other pupils, health and safety requirements and whether aids have been made available through the SEN route. Cost will play a major part in determining what is reasonable. For example, a small rural primary school may not be able to provide specialised IT equipment for any disabled pupils who may need it and it may not be reasonable for the school to provide that equipment. On the other hand, a much larger school might reasonably be expected to provide it.

The guidance states that many pupils with a disability will have an SEN EHCP and therefore auxiliary aids provided by the LA and so may not require anything further. However, if the EHCP doesn't provide the necessary aid, then the duty to consider reasonable adjustments and provide these will fall to the school. The reasonable adjustments duties on schools are intended to complement the **accessibility planning** duties and the existing SEN statement provisions which are part of education legislation, under which Local Authorities have a duty to provide auxiliary aids to pupils with a statement of special educational need. In addition to the duty to consider reasonable adjustments for particular individual disabled pupils, schools will also have to consider potential adjustments which may be needed for disabled pupils generally.

Accessibility planning

Schools and LAs need to carry out accessibility planning for disabled pupils. These are the same duties as previously existed under the Disability Discrimination Act and have been replicated in the Equality Act 2010. Accessibility plans in schools are aimed at:

- Increasing the extent to which disabled pupils can **participate in the curriculum**;
- Improving the **physical environment** of schools to enable disabled pupils to take better advantage of education, benefits, facilities and services provided; and
- Improving the availability of **accessible information** to disabled pupils.

Schools will also need to have regard to the need to provide adequate resources for implementing plans and must regularly review them. An accessibility plan may be a freestanding document but may also be published as part of another document such as the school development plan. Under the new specific duties, there are no longer requirements to create equality schemes. Instead the Accessibility Plan must identify how schools are:

1) Increasing the extent to which disabled pupils can participate in the curriculum

The curriculum covers teaching and learning and wider provision embracing after school clubs; leisure, sporting and cultural activities; and school trips. Planning for improved access to the curriculum includes consideration of school and classroom organisation and support, timetabling, curriculum options, deployment of staff and staff information and training. Curriculum audits can support the school to review patterns of achievement and participation by disabled pupils in different areas of the curriculum, e.g. the inclusion of physically disabled children in PE, and then to identify action to increase participation.

2) Improving the physical environment of schools

This strand of the planning duty covers improvements to the physical environment of the school and physical aids to access education. The physical environment includes steps, stairways, kerbs, exterior surfaces and paving, parking areas, building entrances and exits (including emergency escape routes), internal and external doors, gates, toilets and washing facilities, lighting, heating, ventilation, lifts, floor coverings, signs, interior surfaces, room decor and furniture. Improvements to physical access include ramps, handrails, lifts, widened doorways, electromagnetic doors, adapted toilets and washing facilities, adjustable lighting, blinds, induction loops, communication aids, well designed (passive) room acoustics and way-finding systems. The provision of 'quiet' areas and improvements to the physical safety of the environment, indoors and outdoors, may also enhance access for children with learning disabilities. Improved access in existing buildings can often be achieved by rearranging room space, removing obstructions from walkways, changing the layout of classrooms, providing designated storage space or reallocating rooms to particular subject specialisms. Physical aids to access education cover ICT equipment, desks, chairs, writing equipment, science equipment and the like. E.g. through enlarged computer screens and keyboards, concept keyboards, communication aids, switches, photocopying enlargement facilities, specialist desks and chairs and portable aids for children with motor co-ordination and poor hand/eye skills such as extra robust scientific glassware and specialist pens and pencils.

3) Improving the availability of accessible information to disabled pupils

This part of the duty covers planning to make written information normally provided by the school to its pupils – such as handouts, timetables, textbooks, information about school events – available to those with a disability (including those with significant low reading acquisition levels). This might include alternative formats such as large print, the use of ICT and the provision of information orally, through lip speaking or in sign language. The information should take account of pupils' disabilities and views expressed by pupils or their parents about their preferred means of communication. The school should consider how all information normally provided in a written format including work sheets, timetables, school examination papers, newsletters, information about school events, trips and extracurricular provision could be made accessible to all those with a disability.

Accessibility Plan

1) Improving the curriculum access

Target	Strategy	Outcome	Timeframe	Achievement
Training for teachers on differentiating the curriculum, particularly for identified pupils.	-Undertake an audit of staff training requirements -Liaise with Hearing and Visual Impaired Service -Visual and Hearing impairment training -Liaise with Lindens Outreach – Accessibility for pupils with physical impairment	Teachers are able to more fully meet the requirements of disabled pupils' needs with regards to accessing the curriculum	Ongoing HI and VI support in school Staff training - Autumn 2020 – Risk Assessment completed by Lindens Outreach	Increase in access to the National Curriculum Hearing/Visual/Physical impaired pupils successfully included in all aspects of school life
All out-of-school activities are planned to ensure the participation of the whole range of pupils	Review all out-of-school provision to ensure compliance with legislation	All out-of-school activities will be conducted in an inclusive environment with providers that comply with all current and future legislative requirements	Ongoing	Increase in access to all school activities for all disabled pupils
Classrooms are optimally organised to promote the participation and independence of all pupils	Review and implement a preferred layout of furniture and equipment to support the learning process in individual class bases	Lessons start on time without the need to make adjustments to accommodate the needs of individual pupils	Reviewed each term	Increase in access to the National Curriculum
Training for Awareness Raising of Disability Issues	Provide training for governors, staff, pupils and parents. Discuss perception of issues with staff to determine the current status of school	Whole school community aware of issues relating to Access	Ongoing	Society will benefit by a more inclusive school and social environment
Ensure all children on SEN register have an Assess, Plan, Do and Review Target sheet and are needs are reviewed regularly.	Assess, Plan, Do and Review Target sheets reviewed termly	Assess, Plan, Do and Review Target sheets are up to date and form a key part of the planning process for all pupils	Ongoing	Assess, Plan, Do and Review Target sheets in place to support the needs of individual Children.
Review TA deployment as needed to enable pupils to be appropriately supported.	Discuss termly at intervention meetings with SLT and teaching staff	Adult support is available during times that individual children may need support.	Review termly and annually	Children have access to support to accelerate the rate of their progress and learning

2) Improving the delivery of written information

Target	Strategy	Outcome	Timeframe	Achievement
Availability of written material in alternative formats	The school will make itself aware of the services available through the LA for converting written information into alternative formats.	The school will be able to provide written information in different formats when required for individual purposes.	Ongoing	Delivery of information to all parents/carers
Make available school brochures, school newsletters and other information for parents in alternative formats	Review all current school publications and promote the availability in different formats for those that require it.	All school information available for all	Ongoing	Delivery of school information to parents/carers and the local community improved
The school moves towards an electronic method of communicating to parents.	Development of website Email letters Parental questionnaires	Increased use of website Less paper needed to communicate information	Ongoing	School provides electronic versions of communication via the school website for parents who wish to access
Review documentation with a view of ensuring accessibility for pupils with visual impairment	Get advice from Hearing and Vision Support Service on alternative formats and use of IT software to produce customised materials.	All school information available for all	September 2020 Reviewed and further training September 2021	Delivery of school information to pupils & parents with visual difficulties improved.

3) Improving the physical access

	Compliance evidence	Outcomes
ICT - Equipment purchased (netbooks, iPads, computers, Prodogi)	Access to ICT	
Accessible car parking	Bays and disabled bays marked	
Playground	Resurfaced and outside access to school improved	
Eliminating discrimination and other conduct that is prohibited by the Act.	Behaviour/Anti-Bullying policies reviewed and updated September 2020 Auditing of schools policy and practices to improve outcomes for pupil with medical conditions, as necessary.
